I serve the Beaufort County School District as its Chief Student Services Officer. In my role as Chief Student Services Officer, I selected Jamison Consultants as a provider of mental health services for our school district along with several other agency providers.

Jamison has been providing mental health services the students of Beaufort County School District since September, 2014. During this time I have had the opportunities to interact with Ms. Stephanie Jamison-Void, CEO of Jamison Consultants. Ms. Jamison-Void oversees programs located at Holly Hill, Bluffton, Beaufort and Hilton Head. She has provided direct leadership and implemented a very effective team of Mental Health Professionals that work well with our individual schools.

Jamison's staffers are well educated; each having a bachelor's or master's degree in psychology or a related field. In addition to being well educated, I find them to be professional and effective in dealing with the school administration, families and the students. I have been very pleased with the positive effect the staff from Jamison has had on the students in the Beaufort County School District.

I have no reservations in recommending Jamison Consultants to your school district for services
